CONGRESS

19-20 SEPT 2026

WELCOME MESSAGE

Dear Colleagues,

On behalf of the Scientific and Organizing Committees, as well as the UAE Rare Disease Society, it is my great pleasure to welcome you to attend the **4th UAE Rare Disease Society Congress 2026**, taking place **18-20 September 2026** at Le Meridien, Dubai. The event will open with pre-congress workshops on 18 September, followed by the main congress sessions on 19 and 20 September 2026.

This year's congress is held under the theme: **United for Rare: Empowering Families, Advancing Care**, reflecting our collective commitment to strengthening support systems, advancing scientific knowledge, and improving patient outcomes.

As President of this year's congress, I am deeply honored to host this gathering of distinguished experts, researchers, advocates, and individuals committed to improving the lives of those affected by rare diseases. This congress provides a vital platform for sharing groundbreaking research, fostering collaboration, and advancing progress in the diagnosis, treatment, and support of patients with rare diseases. Our collective efforts are essential in addressing the unique challenges faced by this community, and I am confident that the knowledge, partnerships, and insights gained here will leave a lasting impact.

Although rare diseases are individually uncommon, together they affect millions worldwide, presenting both complex challenges and remarkable opportunities. Research into these conditions often reveals fundamental biological mechanisms, offering insights into more prevalent diseases and driving innovation in diagnostics, therapeutics, and personalized medicine. This focus not only benefits individuals living with rare diseases but also enriches the broader medical field, pushing the boundaries of science and patient care.

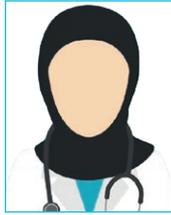

I warmly encourage each of you to participate actively, engage in meaningful discussions, and share your expertise. By working together, we can amplify the voices of those living with rare conditions and move closer to a brighter, more equitable future for all.

CONFERENCE OBJECTIVES

- To enhance awareness and understanding of rare diseases among healthcare professionals and the general public.
- To provide a platform for sharing the latest research, diagnostic, and therapeutic advancements in rare diseases.
- To facilitate networking and collaboration among stakeholders in the rare disease community.
- To promote patient advocacy and support for individuals and families affected by rare diseases.
- To discuss challenges and opportunities in rare disease diagnosis, treatment, and access to care in the UAE and the region.
- To educate healthcare providers on the importance of early diagnosis and appropriate management of rare diseases.
- To improve the quality of life for patients and families affected by rare diseases.

WHY ATTEND THE CONGRESS (KEY POINTS)

- Gain insights into the latest advancements in rare disease research and treatment.
- Network with leading experts, researchers, and clinicians in the field.
- Learn about best practices in diagnosis, management, and care of rare disease patients.
- Connect with patient advocacy groups and families affected by rare diseases.
- Earn continuing medical education (CME) credits.
- Contribute to the growing awareness and understanding of rare diseases in the UAE & the region.
- Discover new opportunities for collaboration and research.
- Stay updated on the latest policies and initiatives related to rare diseases.
- Be part of a community dedicated to improving the lives of those affected by rare diseases.
